

Accounts are being set up for summer and next school year. You will receive an email from IXL once the accounts are ready. If you have not received it by June 1, please contact Aretha to get your child's username and info. The link that needs to be used is <https://www.ixl.com/signin/iccs>. Students that already have an IXL username and password from this year will use the same one.

Rising 4th Grade Summer Reading

During the summer, students at Immaculate Conception are expected to read two books. Students should be prepared to take the Accelerated Reader (AR) tests on the books when they return to school in the fall.

The required book for 4th grade is *The Fabled Fourth Graders of Aesop Elementary School* By Candace Fleming. When class resumes in the fall, the 4th grade will do a study on this novel.

Students should also choose another book to read for the summer. The only requirements are that the book be at least 3rd or 4th grade level and have an AR test. To check to see if a book has an AR test, visit this site: <http://www.arbookfind.com/UserType.aspx> This site will also tell you the book's reading level. Students will take an AR test on the book when they return to school in the fall.

Summer Fun Math and Language Arts

Rising 4th Grade Summer Math and Language Arts (IXL)

The purpose of Immaculate Conception's Summer Math and Language Arts Program is to encourage students to review and practice skills learned during the school year.

Students are expected to participate by practicing online on IXL. Each student is required to complete one hour a week on practicing math and 30 minutes a week on language arts. Please have your child practice a variety of skills.

Your child's homeroom teacher will check the reports when school returns in August. Your child will need to have a total of 10 hours completed in math and 5 hours completed in language arts. The first day of school is August 10, 2016. All work needs to be completed by Friday, August 5th.
